

TECHNICAL BULLETIN

ULTERION® 267 DS

CLEANING AGENT FOR COTTON

PERFORMANCE FEATURES

- Minimizes backstaining
- Compatible with all enzymes
- Highway efficient wetting agent
- Nonyl phenol free

Product Description

Ulterion® 267 DS is a highly concentrated, formulated non-ionic compound made from a combination of highly efficient dispersing agents and surfactants designed for use in textile garment processing. It is a nonyl-phenol free surfactant.

Ulterion® 267 DS is compatible with all classes of enzymes commonly used in garment processing. This includes amylases, cellulases and laccases.

Ulterion® 267 DS is highly effective in minimizes back-staining of indigo dyes on stone-washed denim garments. It can be used in de-sizing operation in the stonewashing step or in the final clean-up at the end of the process.

Typical Properties

% Moisture	11.0 Max
Ionic Nature	Non-Ionic
Odor	Mild
Appearance	Clear to Hazy-Yellowish
Form	Liquid
Density	9.3 lbs/gal
Origin	USA

Application Methods

Ulterion 225 GS is typically applied at 0.1-0.05 % OWG.

MARKET USES

- Denim processing

Handling/Storage Stability

Ulterion® 267 DS should be stored between 20°C and 35°C to insure maximum shelf life. For best results, this dispersion should be used within one year. There are no special storage requirements for *Ulterion® 267 DS*.

Product Safety

When considering the use of **Ulterion International** products, please refer to the latest Material Safety Data Sheets (MSDS). If you require an MSDS for this product; please call (706) 654-2222 or your **Ulterion International Representative**.
